Confidence-Building and Parameters of Trust in Police

Original Research, B13

Saedi A.M. and Ghasemnejad K.

ABSTRACT: The current study deals with the ways of confidence building versus police and determines indices of trust in police. It was hypothesized that there would be a significant difference between the confidence in police and societal participation. One hundred and fifty people were involved in the study. The results showed that confidence building towards police, obedience to law/rule of law (action based on disciplinary regulations), police authority, and hope to future were significant factors.
