Confidence-Building and Parameters of Trust in Police

Saedi A.M. and Ghasemnejad K.

ABSTRACT: The current study deals with the ways of confidence building versus police and determines indices of trust in police. It aims to study the relationship between trust and the factors that affect trust in the Beyhadah Police. This study uses the concept of confidence and the structure of the trust index. The sample consisted of 100; each group included 50 people in total from the local, education, and economic sectors. The data was collected using a questionnaire. The results showed that trust is a significant factor affecting trust in police.
