Confidence- Building and Parameters of Trust in Police

Original Research, B13

Saedi A.M. and Ghasemnejad K.

ABSTRACT: The current study deals with the ways of confidence building versus police and determines indices of trust in police. It is focused on the perception of public opinion about police duties, obedience to law (rule of law), police authority, and hope for the future. The study is based on a survey that includes 116 people. The findings suggest that the police force should improve its performance to gain the public’s trust.
