**ABSTRACT:**

Adolescents egocentrism is a controversial concept in cognitive developmental theories and there are little studies that investigated this concept and its influence on social and emotional development. This study aimed to examine the relationship between Family Communication dimensions, Separation-Individuation and Imaginary Audience in Iranian adolescents. The results revealed the mediation role of PATHSEP between FCP and IA. This explanatory model is elaborated in the article.

**Keywords:** Conversation, Conformity, Separation-Individuation.
Evaluation of Relationship between Personality Traits and General Health of High School Students in Bandar Abbas

Original Research, C4

Zarei, E. Zeinalipour H. Tayebi sough M. Adli M. and Tayebi sough A.

ABSTRACT: The current research has been performed due to evaluation of ties of personality traits and general health. 205 students were chosen for the research. Using the questionnaires of MMPI and MQS, extroversion, openness (flexibility), agreeableness, conscientiousness and neuroticism of the students were measured. The relationship between personality traits of extraversion, openness (flexibility), agreeableness, conscientiousness and general health of students and there is a negative relationship (p < 0.05) between Neuroticism and general health of students. Neuroticism predicts 0.452% of variance of general health.

Keywords: Personality Traits, General Health, Female Students
Network Policy Making: A Necessity for Today’s Organizations

Original Research, C5

Kamel M. Alvani S.M. and Mohammadi Moghadam Y.

ABSTRACT: The highly changeable and inconstant conditions of organizational environments, including public and private sectors, have led to a new approach in decision making. This approach is based on cooperation in policy making in networks, which is the key to the successful management of today's organizations. In this research, the concept of network structure and network management is reviewed, and the meaning and role of the social capital are reviewed in order to prepare organizations for progressing in this direction.

Keywords: Policy making, Decision making, Network structure, Social capital.
