Network Policy Making: A Necessity for Today’s Organizations

Kamel M. Alvani S.M. and Mohammadi Moghadam Y.

ABSTRACT: The highly changeable and inconstant condition of organizational environments, including public and private sectors, necessitates the need for continuous and effective decision making in order to survive and improve. In this regard, network structures are considered the most suitable and effective solution. The present paper is an attempt to introduce a theoretical and applied model for network policy making in organizations. The model is based on social capital theory and provides a step-by-step guide for organizations to use the model. This step-by-step guide is followed by theoretical and applied suggestions in order to prepare organizations for progressing in this direction.
