Network Policy Making: A Necessity for Today’s Organizations

Original Research, C5

Kamel M. Alvani S.M. and Mohammadi Moghadam Y.

ABSTRACT: The highly changeable and inconstant condition of organizational environments, including public and private sectors, necessitates policies to be made more effectively. The current study focuses on policy making in network settings and provides a theoretical and applied suggestion to make policies in such environments. It also presents some models and tools that can be used to improve the decision-making process in network settings. The results showed that the policies of today’s organizations need to be better designed and implemented to meet the needs of their environments.
