Keywords: Education, Teachers, Information, Communication.
The Relationship between Students' Literary Ability and Their Academic Achievement

Dorri N. Zarei E. and Heydari H.

ABSTRACT:
This study examined the relationship between students' academic progress and their literary abilities. This was a descriptive research study. The study sample included 42 students from different fields of study. The data were collected through the students' literary ability test and their academic achievement. The results showed a significant positive correlation between students' literary ability and their academic achievement. Therefore, it is recommended that programs for optimizing the literary abilities of students at all levels be provided.
