The Relationship between Students' Academic Achievement and Their Literary Ability

**ABSTRACT:**

This study examined the relationship between students' academic progress and their literary abilities. This was a descriptive project that has dealt with rate of Organizational Citizenship Behavior (OCB) in personnel of Shahed University. This study has been conducted to determine effective strategies in improving Organizational Citizenship Behavior. The data was collected through questionnaires. The mean rate of OCB in personnel of Shahed University was also at greater level. In other words, 22% of variances of the entrepreneurship criterion variable are explained by the predictor variables.
