The Relationship between the Literary Ability of Students and Their Academic Achievement

Original Research, C8
Dorri N. Zarei E. and Heydari H.

ABSTRACT:
This study examined the relationship between students' academic progress and their literary abilities. This was a survey done on 100 students from Grade 12 of Shahed University and the results showed a significant positive correlation between these two factors. Therefore, it is suggested that general programs should be introduced for optimizing the literary abilities of various ages. It is also recommended that programs for improving literary knowledge and comprehension should be provided. As the result is not gender specific, general programs for optimizing the literary abilities of various ages should be provided.

Keywords: Literary Ability, Academic Achievement, Literary Knowledge, Comprehension

An Investigation into the Rate of Organizational Citizenship Behavior (OCB) in Personnel of Shahed University in order to Purpose Improvement Strategies

Original Research, C9
Khorshidi A. and Sadeghi S.

ABSTRACT:
The current study is a descriptive project that has dealt with rate of Organizational Citizenship Behavior (OCB) in personnel of Shahed University. The results indicated that the mean rate of OCB in personnel of Shahed University is above the mean rate of OCB in general personnel of private universities, and also more than the mean rate of OCB in personnel of public universities. The results showed that the rate of OCB in personnel of Shahed University is at a greater level than the mean rate of OCB in personnel of private universities. Therefore, it is suggested that the personnel of Shahed University should be encouraged to have a higher rate of OCB. In general, Organizational Citizenship Behavior of academic personnel is also at greater level than mean rate.

Relationship between Achievement Motivation and Ambiguity Tolerance with Entrepreneurship among Students in Hormozgan University

Original Research, C10
Zarei E. Zainalipour H. and Shahverdi Shahraki L.

ABSTRACT:
The aim of this study is to examine the relationship between achievement motivation and ambiguity tolerance with entrepreneurship among students in Hormozgan University. The results showed that achievement motivation is a significant predictor of entrepreneurship among students in Hormozgan University. In other words, 22% of variances of the entrepreneurship criterion variable are explained by the predictor variables.
