The Study of Relationship between Profitability Ratio and Critical Success Factors in Active Companies in FMCG Industry of Tehran Stock Exchange

Original Research, C11

Daneshvar A. Hasanpour E. and Rahgozar H.

ABSTRACT: The aim of the present study is determining the relationship between profitability ratio and critical success factors in active companies in the FMCG industry of Tehran Stock Exchange.

Keywords: Critical Success Factors, Profitability Ratio, FMCG Industry.
A study on the role of Teaching Persian Conversation Program (TPCP) on the educational success of non-Persian adult learners in Iran was conducted. Problems exist in the choice of words, sentences, methods of teaching contents, and non-colorful pictures in tablets.

The present research aims at investigating the relation between risk and stock return through evaluation of the Downside Capital Asset Pricing Model (DCAPM) in different time series. The method used was:

Anger, Self-confidence, Success, Volleyball player

Emotional Intelligence, Personality Features, Job Satisfaction, Teachers, Junior High School

One of the most important goals in any organization is increasing workforce productivity. Information systems, Systems, Systems

The main objective of this study was to determine the prevalence of bullying/victimization and gender differences in high school principals from Boostan and Golestan towns. It was found that boys, more than girls, bully others, and more boys than girls are being bullied or are bullying victims.

The purpose of this study is to evaluate the relationship between corporate governance and accounting conservatism. The correlation between ownership, the independency of the board of directors, and the auditor's type and the accounting conservatism was studied.

The present study is aimed at reviewing the skills within high school principals from Boostan and Golestan towns. The results from ANOVA and review of high school principals' skills from Boostan and Golestan towns are presented.

In this study, systematic risk, stock return, DCAPM, time series, Tehran stock exchange are discussed.

This study is intended to examine the impact of pre-competition anger on self-confidence and success of volleyball players. It was seen in subscale of self-confidence between top-middle ranks with middle-lower ranks in these teams (p<0.05; F=2.51).

The purpose of this research is to study the relationship between risk and return on equities in the Tehran stock exchange. Relationships between the risk and the return on equities possible in the accepted companies in the Tehran stock exchange are investigated.

Given intense fluctuations of Iran currency value (Rial) in recent years, we decided to study the effect of exchange rate fluctuations (USD) on stock returns of the manufacturing companies listed in the Tehran Stock Exchange. The correlation between exchange currency, stock returns, time interval, arbitrage, and exchange rate is presented.

A model on the auto-regression is used to quote the relation between the risk and the yield of the shares. An appropriate model is determined for the study in the case of 24 weeks interval and 29% of changes in stock price returns are shown in the case of 24 weeks interval.

The end of financial year and changes in the financial year during the research time. Also, companies should be active in the Tehran Stock Exchange during the research time. The auto-regression model is an appropriate model to quote the relation between the risk and the yield of the shares.
An Investigation into the Adjusted Dynamic Capital Asset Pricing Model (D-CAPM) in Different Time Series Using Wavelet; a Case Study: TSE

ABSTRACT:
This study aimed to access the Downside Capital Asset Pricing Model at different time scales with use of wavelet... was evaluated. The result showed most anticipated Downside Capital Asset Pricing Model (DCAPM) at 16-32 day intervals.

Keywords: Downside Capital Asset Pricing Model (DCAPM), Time Scales, Wavelet Analysis, Systematic Risk

Examination of the Relationship between Transformational Leadership Style and Organizational Justice in Elementary School Principals in Bandar Abbas

ABSTRACT:
This study examined the relationship between transformational leadership style and organizational justice in elementary... transformational leadership and organizational justice as efficient components can contribute to training management.

Keywords: Organizational Justice, Transformational Leadership Style, Elementary School Principals

Anticipating Quality of Life of Working Women and Housewives Based on Power Structure, Collaboration and Family Functions

ABSTRACT:
The purpose of this research is anticipating quality of life regarding power, family collaboration and family functions... shows that family functions, collaboration and power structure may significantly help anticipating quality of life ($R^2 = 0.32$). Also, there is a significant difference between mentioned factors in working women and housewives ($p = 0.017$, $t = 2.56$). The result concluded that family functions are effective variables on life styles and women's job highly contributes on psychological state of families.

Keywords: Quality of Life, Power Structure, Family Functions, Collaboration, Working Women and Housewives.
