ABSTRACT: The aim of the present study is determining the relationship between Profitability Ratio and Critical Success Factors in FMCG industry in stock exchange.

Keywords: Critical Success Factors, Profitability Ratio, FMCG Industry, Stock Exchange
The present study is intended to examine the impact of pre-competition anger on self-confidence and success of volleyball players in Premier League and its relation with athletes’ experience. The study found a significant positive relationship between pre-competition anger and self-confidence. The results also indicated that athletes with more experience showed higher self-confidence and success when compared to those with less experience. The study recommends incorporating strategies to manage pre-competition anger in order to improve the performance of volleyball players.
ABSTRACT:
