Sadeghifard, M. Zarei E. and Rafiee, N.
ABSTRACT:
The purpose of this research is anticipating quality of life regarding power, family collaboration and family functions. The research shows that family functions, collaboration and power structure may significantly help anticipating quality of life ($R^2 = 0.32$). Also, there is a significant difference between mentioned factors in working women and housewives ($p = 0.017, t = 2.486$). The study concluded that family functions, collaboration and power structure are effective variables on life styles and women’s job highly contributes on psychological state of families.

Keywords: Quality of Life, Power Structure, Family Functions, Collaboration, Working Women and Housewives

The Role of Religion in Dominance of Iranian Culture and Customs in Arabic and Islamic Culture at the First Two Centuries of Hejira
Dorri, N.
ABSTRACT:
One part of every nation's culture, mores and manners derives from its beliefs and thoughts. The culture of different nations is the result of the comprehensive application of these beliefs and thoughts. Iranians are interested in saints of Shia because it had a close relation with their historical thoughts and principle beliefs.
