The Study of Relationship between Profitability Ratio and Critical Success Factors in Active Companies in FMCG Industry of Tehran Stock Exchange

Original Research, C11

Daneshvar A. Hasanpour E. and Rahgozar H.

ABSTRACT: The aim of the present study is determining the relationship between profitability ratio and critical success factors in FMCG industry in stock exchange.

Keywords: Critical Success Factors, Profitability Ratio, FMCG Industry
The present study is aimed at reviewing the existing skills within high school principals from Boostan and Golestan towns in relation to educational supervision and guidance. The statistical populations were all of the companies listed in Tehran Stock Exchange on condition that they had not changed their financial year during the research time. Also, the companies should not be of investment, financial intermediary, or holding nature. In order to analyze the data, a linear regression model was used. The results were indicative of a positive and significant relation between historical and future risk of returns and returns for those companies active in Tehran Stock Exchange, during different time scales (excluding time periods 2-4).
