**Presentation of a Model for Evaluation of Effective Factors on Developing of the Perceived Excellent Educational Ethics**

**Original Research, D2**

**Amini M., Shafipour Motlaq F. and Rahmani J.**

The present study was intended to identify the relationship between triple factors (supervision, fair/equitable treatment with students, and critique of students) and developing the perceived excellent educational ethics. The investigation explored the structural relationship between the perception of class and psychological basic needs of university students and their academic engagement.

**Keywords:** Students Supervision, Critique of Students, Equitable/Fair Treatment with Students, Developing the Perceived Excellent Educational Ethics

**Original Research, D3**

**Asadian MH., Kavosian J., Bagi A., Hashami K., Arabzadeh M. and Hoseinpour M.**

The study present a model to describe structural relations between three groups of variables based on theories. The model revealed that the relationship between cognitive and affective variables was significant (but low) and between psychological basic needs and academic performance was significant considerably.

Keywords: Psychology, Cognitive, Affective and Behavioral

Reliability and Validity of the Balanced Scorecard in Iranian Organizations

Original Research, D7

Hashemian F., Abbaspour A., Piri Zamaneh M. and Taheri B.

ABSTRACT: In this study using the Balanced Score card in Iranian organizations, we try to examine coefficient of 55-item construct validity. The same 55-item construct validity is confirmed after the factor analysis of 14 factors, each factor is designed to measure. In addition, the coefficient is confirmed as the face validity of the construct validity (evaluation function) that is designed to measure.

Keywords: Balanced Scorecard, Reliability, Validity

A strategic Review the Impact of Intellectual Capital Components on Organizational Performance

Original Research, D8

Hashemnia SH., Naseri S. and Tabatabaei Mozdabadi SM.

pii: S23224770 1400008-4
The present study searches for determination of the relationship between Intellectual Capital (and its components) with Organizational Performance of Sepah Bank branches throughout Tehran Province. The regression analysis of the sample data showed that Structural Capital (β=0.452, P<0.01) has the highest impact on Organizational Performance of Sepah Bank branches throughout Tehran Province.

Keywords:
Intellectual Capital, Human Capital, Relational (Customer) Capital, Structural Capital, Performance, Sepah Bank

The result showed that the coefficient of determination in the acceptable range, it is accepted due to the significant reduction. Thus, the final model has been fitted properly.

**Keywords:** Employee Perceptions of Organizational Context, Job Attitudes, Organizational Identity
One of the fundamental concepts of philosophy is the concept of possibility. This concept of possibility is of vital importance in Islamic and Western lifestyle, viewpoints, ethics, and views on events and matter. Avicenna and Mulla Sadra developed different antecedents for organizational citizenship behavior in the literature which themselves are more affected by workplace spirituality. The concept of possibility or originality of an object, event, or fact is based on the theory of originality of its existence. To his opinion, the criterion to cause the possibility of poverty is a basic problem in society.
ABSTRACT: Loan, as a part of economic system with social results, is emphasized in Quran and narratives. Verses of Quran about loan are interpreted by Imami scholars in different viewpoints. This paper compares views of Imami scholars with those of Sunni and Shafi'i scholars to observe some of the differences between them. The paper also interpreted the content of these verses in respect of interest-free loan and charity. 

Keywords: Loan, Religion, Interest Free Loan, Charity
