Composing in Persian as a Second Language and English as a Foreign Language: A Study of Narrative Writing

Original Research, D11

Savaed SY.

ABSTRACT: Although numerous studies have been conducted to investigate second language composing processes, little research has been devoted to the study of narrative writing as a second language. In this study, we compared the composing processes of students from second and lower second language levels to native English and Persian students. The data suggest that while the native English students had fewer problems in composing in English and Persian, whereas some of the students below the level had considerably more problems in composing in English and Persian.

Keywords: Second Language, Narrative Writing, Linguistics
