Comparative analysis on Cyber-Crimes

Review Article, C50

Najafi Y., Inanloo A, Radmehr S, and Jahani Z.

ABSTRACT: So far legislators from several countries have purposed many definitions for cyber-crime but they have not yet achieved adequate success. The definitions made by the legislatures have considered computer-related crimes, cyber-crimes, content-related crimes, and cyber content-related crimes. However, the current nature of the crimes committed in cyberspace has not been adequately implied and classified. This study attempts to regard and imply briefly about types of cyber-crimes and classification of the content-related crimes in cyberspace.

Key words: Computer-related Crimes, Criminalization, Information and Communication Technology (ICT), Criminal Content Cyber Crimes, Cyberspace, Content-related Crime

Study of Rumination and Locus of Control Roles in Depression of Female Employees of the University of Medical Sciences, Rasht, Iran

Original Research, C51

Mohammadi K., Zarei E., Chaleshgar M.

ABSTRACT: Depression is a phenomenon that is considered to be one of the most complicated issues of mental health in today's world.
