Assessing the Effects of Auditing Institutions’ Size and Type of Auditors’ Opinion on Auditing Institutions’ Rotation

Original Research, D28

AbdoliM. Mahmoudzadeh A. and Darvishan M.

ABSTRACT: Nowadays, not only in academic areas but also among the ordinary people and organizations, auditors’ independency is a key issue. In this study, the researchers assessed the effects of auditing institutions’ size and type of auditors’ opinion on auditing institutions’ rotation. The study’s results indicated that despite the importance of auditors’ independency, auditors’ opinion and auditing institutions’ size are not significantly associated with auditing institutions’ rotation.

Keywords: Auditing Institution’s Rotation, The Type of Auditors’ Opinion

Growing demands in finding new strategies to maximize organizational effectiveness have resulted in development of psychological capital, which is closely related to individuals' job satisfaction. An individual with high psychological capital is more resilient, less likely to experience unreasonable stress, and more likely to engage in positive organizational behavior. This study aimed at investigating the relationship between psychological capital with perceived organizational support, job satisfaction and affective commitment within Imam Khomeini Shazand Oil Refining Company.

The aim of this study was to investigate the relationship between the components of emotional intelligence and addiction potential of high school male students. Emotional intelligence (EI) has been described as an important personality trait that affects the ability to manage emotions, assess one's own and others' emotions, and use emotional information to guide behavior. The results showed that students with high EI were less likely to be caught in this trap. And it makes clearer the need of students to participate in group work.

The anxiety for EFL learners that accompanies the listening comprehension (LC) task is difficult to detect, but its effect on learning must be considered. According to the results of the present study, there is a significant negative correlation between anxiety and listening comprehension. The result shows anxiety and listening comprehension in English are correlated negatively.

Assessing Asymmetrical Relationship between Cash Flow Sensitivity and Operating Cash Flow

Abdoli, M. Mahmoudzadeh, A. and Rahimiyan, F.

ABSTRACT:
Economic institutions mostly hold their assets in the cash accounts. The present study mainly aims to assess the relationship between cash flow sensitivity and operating cash flow. The results also showed that fiscal restraints are not significantly influential in cash flow sensitivity of cash.

Keywords: Asymmetric cash flow, Fiscal constraint, sensitivity of cash

Effect of Corporate Governance on Information Content of Operations (Unprofitable Compared Profitable Companies)

Sedighi, R. Abdoli, M. and Mahmoudzadeh, A.

ABSTRACT:
The purpose of this study is to investigate the effect of corporate governance mechanism on information content of operations. In order to do so, the impact of variables such as Institutional Investors, The Non-duty Managers in the Board of Directors, Free Float Stock and The Use of Debt in Financing on Stock returns of both unprofitable and profitable companies was studied. Statistical sample includes 13 companies, between the years of 2007 to 2012 this study "combinational data" method was used in order to test considered theories.

Study results shows that there is a meaningful relation between nominative stockholders percent of property and stock returns in bad companies . In addition, there is also a positive relation between unbound managers in board of directors and Stock returns, which its impact is more in bad companies. Moreover, there is a meaningful relevance between floating stock and stock returns in both profitable and bad companies but it has a stronger effect on the former one. Finally, there is a negative relation between the cost of Loan and the Return on Equity in bad companies. However, no relation was found in profitable companies.

Keywords: Corporate Governance, Debt Financing, Institutional Investors, Non-duty Managers, Stock returns.
