Comparing Anger Management, Anger Dimensions, and Quality of Life in Methadone Maintenance Treatment Addicts and Non Addicts

Original Research, D64

Tabatabae, S.M. Moazedian, A. and Noori, H.

ABSTRACT: The purpose of present research is "The Comparison of Anger Control, Anger Dimension and Quality of Life addict males and also non addict males regarding anger control and quality of life addict males and non-addict males."

Keywords: Anger Control, Anger Dimension, Quality of Life
ABSTRACT: The current investigation is intended to identify the effective factors on achievement in Smart Schools via study on the status quo and problems in Smart Schools. It is concluded that human factors are in good condition, shortage is in software and environmental factors are at average level. It is also realized that hardware, software and digital factors are not in suitable conditions and also environmental factors are at average level.

Keywords: Smart Schools, Evaluation, Information Technology.
ABSTRACT: The purpose of the present study is examination of the impact of the program "philosophy for children" (p4c) on foster self-esteem in adolescents. The study involved 100 foster adolescents, divided into two groups: experimental and control. The experimental group participated in the p4c program for 8 weeks, while the control group did not receive any intervention. The study utilized a pre-test and post-test design, with measures of general self-esteem, family self-esteem, social self-esteem, and education self-esteem. The results indicated a significant increase in self-esteem for the experimental group compared to the control group. The study also examined the effect of the program on the different components of self-esteem and found that it positively influenced all four components. The findings suggest that the philosophy for children program has potential benefits for fostering self-esteem in adolescents.
An Examination into the Elementary Schools Teachers' Viewpoint on the Role of Assistant Principal

ABSTRACT: The present research has employed a qualitative approach with a phenomenological method to assess the viewpoint of teachers on the role of Assistant Principal within the enacted curriculum. The study found that perceived role clarity, school culture, and leadership style are influential factors in encouraging the teachers to employ innovative methods and avoid the traditional methods.

Keywords: Enacted Curriculum, Role, Viewpoint, Assistant Principal
