The Comparative Analysis on Mathematical Achievement, Self- efficacy, and Self-concept Based the Perceived Classroom Climate

Original Research, D60

Kakojoibari, A. and Sharifi Saki, Sh.

ABSTRACT: The current study is aimed at conducting a comparative analysis on mathematical achievement, self-efficacy, and self-concept based on the perceived classroom climate. The results showed that the difference in mathematical achievement and self-concept are not statistically significant. However, the analysis revealed that there are some variables, such as self-efficacy, that can influence these outcomes.

Keywords: Mathematics Achievement, Mathematical Self-efficacy, Mathematical Self-concept, Perceived Classroom Climate, Students
