The Comparative Analysis on Mathematical Achievement, Self- efficacy, and Self-concept Based the Perceived Classroom Climate

Original Research, D60

Kakojoibari, A. and Sharifi Saki, Sh.

ABSTRACT: The current study is aimed at conducting a comparative analysis on the relationship among mathematical achievement, self-efficacy, and self-concept based on the perceived classroom climate. The study utilized a survey instrument to gather data from students in two different classrooms. The results indicated a significant difference in mathematical achievement, self-efficacy, and self-concept between the two classrooms. Subsequent multivariate analysis showed that this difference is mediated by the perceived classroom climate.

Keywords: Mathematics Achievement, Mathematical Self-efficacy, Mathematical Self-concept, Perceived Classroom Climate, Students

ABSTRACT: The current investigation is intended to identify the effective factors on achievement in Smart Schools via study on the status quo and problems in Smart Schools. The investigation was conducted through a qualitative research method by examining the information reported in the Smart Schools. The findings indicate that the human factors are in poor condition, the hardware and software factors are not suitable conditions, and the environmental factors are at average level.
Foster Self-esteem in Adolescents: Lipmann Approach

Original Research, D66

Tajali Nia, A.

ABSTRACT: The purpose of the present study is examination of the impact of the program "philosophy for children" (p4c) on foster self-esteem in adolescents. The study was conducted on a group of 30 adolescents from two different classes. The researcher introduced the p4c program to one of the classes, while the other class continued with their usual activities. The participants' self-esteem was measured through the Investigation Ring questionnaire before and after the program. The results showed a significant increase in the self-esteem of the group that participated in the p4c program, indicating the effectiveness of the program in fostering self-esteem.
An Examination into the Elementary Schools Teachers' Viewpoint on the Role of Assistant Principal within the Enacted Curriculum

Original Research, D67
Mahdavi, N.

**ABSTRACT:** The present research has employed a qualitative approach with a phenomenological method to assess the viewpoint of teachers regarding the role of assistant principals within the enacted curriculum. The study suggests that factors such as the school's policy, the assistant principal's characteristics, and the teacher's role in decision-making are influential factors in encouraging the teachers to employ innovative methods and avoid the traditional methods.

**Keywords:** Enacted Curriculum, Role, Viewpoint, Assistant Principal

Keywords: Financial capital, Abnormal yield, Economic added value, Residual income
The Relationship between Religious Beliefs, Optimism and Moral Health of the University Students

Original Research, D70

Zakery, J. Makari, R. Pir Cheraghi, A. and Zahedi, O.

ABSTRACT: The target of the current study is to assess the relationship between religious beliefs and optimism and moral health. It is hypothesized that the variables of religious beliefs and optimism, respectively, were the factors of forecasting the moral health.

Keywords: Religious beliefs, Optimism, Moral health

Investigating the Impact of Restated Financial Statements on Persistence of Financial Performance

Original Research, D71
Khatibzadeh, P. Abdoli, M. and Dehdar, F.

ABSTRACT: The present research investigates the relationship between the restated accounting figures and persistence of financial performance. The study finds that increases in restated financial performance are associated with higher persistence of financial performance, while increases in financial leverage result in reduction of the persistence of financial performance.

Keywords: Restated Financial Statement, Persistence of Financial Performance

Earnings Management and Intellectual Capital

Original Research, D72

Galdipour, S., Rahimiyan, F., Etemad, A. and Panahi, H.
ABSTRACT: The present study aims to investigate the relationship between intellectual capital, its development, and earnings management. Using the modified Jones model, discretionary accruals were applied as the criterion for determining earnings management. The results indicate a negative correlation between intellectual capital and earnings management, but there is no significant relationship between intellectual capital and intellectual capital development.

Keywords: Intellectual Capital, Intellectual Capital Development
