An Examination into the Elementary Schools Teachers' Viewpoint on the Role of Assistant Principal

Original Research, D67

Mahdavi, N.

ABSTRACT: The present research has employed a qualitative approach with a phenomenological method to investigate the viewpoint of teachers in elementary schools on the role of assistant principal within the enacted curriculum. The research findings indicate that the assistant principal plays a crucial role in supporting and facilitating the implementation of innovative teaching methods. The presence of a supportive assistant principal can significantly enhance the teachers' comfort and confidence in employing new teaching strategies, thus encouraging them to move away from traditional teaching methods. Factors such as the assistant principal's encouragement, guidance, and willingness to try new things are influential in encouraging teachers to adopt innovative methods in their classrooms.
ABSTRACT: The main purpose of this research is to survey the relationship between the social capital and knowledge management with organizational intelligence in the Tax Affairs Organization of Tehran. The study is conducted through a survey method on a sample of employees from this organization. The results show that relative and recognizable capital, learning organization, and knowledge management components can predict the organization intelligence.

Investigating the Impact of Restated Financial Statements on Persistence of Financial Performance

Original Research, D71
Khatibzadeh, P. Abdoli, M. and Dehdar. F.

ABSTRACT: The present research investigates the relationship between the restated accounting figures and persistence of financial performance. It examines the impact of earnings management on intellectual capital. The study finds that restatement of financial statements is positively related to the persistence of financial performance. Moreover, earnings management increases, while increasing financial leverage results in reduction of the persistence of financial performance.

Keywords: Restated Financial Statement, Persistence of Financial Performance

Earnings Management and Intellectual Capital

Original Research, D72

Galdipour, S., Rahimyan, F., Etemad, A. and Panahi, H.
ABSTRACT: The present study aims to investigate the relationship between intellectual capital, its development, and earnings management. Using a modified model, discretionary accruals were applied as the criterion for determining earnings management. There is a significant correlation between earnings management and both intellectual capital and intellectual capital development. However, the relationship between intellectual capital and intellectual capital development is not significant.

Keywords: Intellectual Capital, Intellectual Capital Development

Baghdarnia, M. and Arash, M.

ABSTRACT: The goal of this study was to determine gaps in perceptions and expectations of students in University of Tehran using SERVQUAL. This study is an extension of a similar study performed in the first semester of 2013 and aimed at improving the quality of educational services. The results showed that while the current status of educational service exceeds the optimal status in about 50%, significant gaps still exist between current and optimal statuses. The study also highlighted that the gaps are mainly related to the delivery of educational services, such as staff expertise and counseling services. Therefore, it is necessary to attempt to eliminate or mitigate these gaps to improve the quality of educational services.
