ABSTRACT: The current study is aimed at conducting a comparative analysis on mathematical achievement, self-efficacy, and self-concept based on the perceived classroom climate.

Keywords: Mathematics Achievement, Mathematical Self-efficacy, Mathematical Self-concept, Perceived Classroom Climate, Students
The Study on the Impact of Teachers’ Content Production on Their Performance in Schools of Tehran

Original Research, D61

Norietemad, J.

ABSTRACT: The present research was conducted to study...
ABSTRACT: The main goal of this study is to determine prevalence of mental disorders among the population of 15-65 years of age in Iran. Current study showed that prevalence rate of mental disorders is higher among the females than male (34.4% VS 21.1%).

Keywords: Anxiety; Depression; Somatization; Social Performance Disorder; Mental Disorders.
Masters Students’ Views towards the Ratio of Iran IAU-Sari Branch Faculty Members use of Human Relations Index

Original Research, D63

Mirsaidi, G. and Yaghoubi, M.

ABSTRACT: The purpose of this study was to evaluate Masters Students’ Views towards the Ratio of Iran IAU-Sari Branch Faculty Members use of Human Relations Index.

Keywords: Human Relations, Faculty members, Students Education, Content Product, Performance, Teachers, Smart Schools

pii: S23224770 1400064-4
Comparing Anger Management, Anger Dimensions, and Quality of Life in Methadone Maintenance Treatment Addicts and Non Addicts

Original Research, D64

Tabatabaee, S.M. Moazedian, A. and Noori, H.

ABSTRACT:
The purpose of present research is "The Comparison of Anger Control, Anger Dimension and Quality of Life addict males and also non addict males regarding anger control and quality of life addict males and non-addict males.

Keywords:
Anger Control, Anger Dimension, Quality of Life
Identifying the Effective Factors on Achievement of Smart Schools by Review of the Status Quo and Problems in Smart Schools

Original Research, D65
Mirsaidi, G. and Yaghoubi, M.

ABSTRACT: The current investigation is intended to identify the effective factors on achievement in smart schools via study on the status quo and problems in smart schools. The results revealed that teachers' education and software and digital factors are not in suitable conditions and also environmental factors are at average level.

Keywords: Smart Schools, Evaluation, Information Technology
Foster Self-esteem in Adolescents: Lipmann Approach

Original Research, D66

Tajali Nia, A.

ABSTRACT: The purpose of the present study is examination of the impact of the program "philosophy for children" (p4c) on foster self-esteem in adolescents. The program has four components: general self-esteem, family self-esteem, social self-esteem, and education self-esteem. 

Keywords: Self-esteem, Philosophy for Children, Investigation Ring
An Examination into the Elementary Schools Teachers' Viewpoint on the Role of Assistant Principal

Original Research, D67
Mahdavi, N.

ABSTRACT: The present research has employed a qualitative approach with a phenomenological method to assess the viewpoint of teachers on the role of assistant principal within the enacted curriculum. The findings indicate that some factors, such as the encouragement of innovative methods and the avoidance of traditional methods, are influential factors in encouraging teachers to employ innovative methods and avoid traditional methods.

Keywords: Enacted Curriculum, Role, Viewpoint, Assistant Principal
Examining the Relationship between Knowledge Management and Organizational Intelligence in Tax Affairs Organization of Tehran

Original Research, D68

Nazem, F Sajadian, S.M. and Malek Shahi, A.

ABSTRACT: The main purpose of this research is to survey...

**Investigating the Impact of Restated Financial Statements on Persistence of Financial Performance**

Original Research, D71
Khatibzadeh, P. Abdoli, M. and Dehdar. F.

ABSTRACT: The present research investigates the relationship between the restated accounting figures and persistence of financial performance. It is hypothesized that the restatement of financial figures due to earnings management results in reductions of the persistence of financial performance. The analysis reveals that restatement due to earnings management results in reductions of financial performance persistence, while increasing financial leverage results in a reduction of the persistence of financial performance.

Keywords: Restated Financial Statement, Persistence of Financial Performance

Earnings Management and Intellectual Capital

Original Research, D72

Galdipour, S., Rahimiyan, F., Etemad, A. and Panahi, H.
ABSTRACT: The present study aims to investigate the relationship between intellectual capital and earnings management. Using a modified Jones model, discretionary accruals were applied as the criterion for determining earnings management. The study examined the relationship between intellectual capital and earnings management in a sample of 121 companies over the period from 2006 to 2012. The results indicate that intellectual capital and earnings management are interrelated, but there is no significant relationship between intellectual capital and intellectual capital development.

Keywords: Intellectual Capital, Intellectual Capital Development

Educational Services Quality Analysis
Original Research, D73
Baghdarnia, M. and Arash, M.

ABSTRACT: The goal of this study was to determine gaps in perceptions and expectations of students in University of Tehran using SERVQUAL instrument. The findings showed that gaps were different at different levels of service quality, thus it should be attempted to eliminate or mitigate gaps in current and optimal statuses.

Keywords: Educational service; Student University; Quality

Aslani, N.

ABSTRACT: The basic objective of the present study is rev...
Investigate the Effect of the Philosophy for Children program (p4c) on Reducing Trait Anger in Teens

Original Research, D76
Tajali Nia A.

ABSTRACT: The purpose of the present study is investigating
The present study aims to assess the relationship between information asymmetry and the cost of equity capital in listed companies. It is hypothesized that there is a positive relationship between information asymmetry and the cost of equity capital; however, this hypothesis can be confirmed in case of utilizing control variables.

Growing demands in finding new strategies to maximize organizational effectiveness have resulted in significant consideration of psychological capital. It is suggested that psychological capital relates positively to work attitudes in organizations. This research aims to evaluate the optimum portfolio selection using the particle swarm algorithm. For this purpose, the algorithm is compared with other optimization algorithms in terms of performance. The fact that in the problems which are with complexity and size increases, the particle swarm algorithm performs better.

The goals of this study were investigation of relationships between mathematics achievement and some contextual variables. The general objective of this study is comparison of managers' critical thinking of the elementary school, guidance and high school for girls in Islamshahr City. The findings showed that the school level accounts for a significant amount of variability of student mathematics achievement. There are significant differences in critical thinking among elementary and high school principals in the field of analysis.

The current research is intended to examine the relationship among Field dependence-Independence (FDI) cognitive styles and classrooms score lists. Data analysis done by regression analysis indicates that FDI cognitive style interprets a significant amount of variance of these scores. Mindfulness training and Behavioral Drug Reduction Counseling (BDRC) may be considered effective practical methods in reducing the risk of relapse in male drug abusers.

Engagement in mathematics should be expected of all students, and the learning environment should be one where students have the requisite prior knowledge, the curriculum is relevant to them, the classroom tasks interest them, and the learning, cognitive styles, reading comprehension, educational achievement, and classroom, curriculum, learning.

The purpose of this research was to discover the prediction of divorce between Zanjan couples based on mental disorders and demographic characteristics. The findings underline the importance of mental disorders and demographic characteristics in divorce. The present study was designed to investigate the effectiveness of mindfulness in the prevention of drug relapse. Method: Participants were randomly assigned to intervention and control groups. The findings indicate that mindfulness training and BDRC may be considered effective practical methods in reducing the risk of relapse in male drug abusers.
