Design and Explanation of Individual Aspects of Trauma Controlling Organization in Public Sector

Original Research, D58

Vahedi, M. Shekari, H. and Shirazi S.
ABSTRACT: In an organization design, individual, organizational and environmental aspects are included. This paper studies the indirect impact of trauma controlling organization in the public sector. The indirect impact is 0.41 in the organization.

Keywords: Trauma; Public Sector; Individual Aspects

Individualized Instruction in Computer-Assisted Instruction

Original Research, D59

Iravani, M.R. Samifar, H. Shekarchi Zade., A.R.

The improvement of instruction has been a goal of educators as far back as the teachings of the Greek philosopher. This approach and define and describe its approach and advantages and also disadvantages of individualized instruction.

Keywords: Individualized Instruction, CAI
**ABSTRACT:**
The current study is aimed at conducting a comparative analysis on mathematical achievement, self-efficacy, and self-concept based on the perceived classroom climate. The results indicated that there are significant differences in these variables among students. Further analysis through route diagrams showed that these differences can be adjusted by certain variables such as mathematical self-efficacy.

**Keywords:** Mathematics Achievement, Mathematical Self-efficacy, Mathematical Self-concept, Perceived Classroom Climate, Students.
The present research was conducted to study on the impact of teachers' content product on their performance in schools of Tehran.

**ABSTRACT:**

The present research was conducted to study on the impact of teachers' content product on their performance in such schools.

**Keywords:** Education, Content Product, Performance, Teachers, Smart Schools.

Keywords: Religious beliefs, Optimism, Moral health

Investigating the Impact of Restated Financial Statements on Persistence of Financial Performance

Original Research, D71
Khatibzadeh, P. Abdoli, M. and Dehdar. F.

ABSTRACT: The present research investigates the relationship between the restated accounting figures and persistence of financial performance. It is found that restatement of financial statements due to misstatements or errors results in a decrease in the persistence of financial performance. In contrast, higher levels of earnings management and intellectual capital increase the persistence, while increasing financial leverage results in reduction of the persistence of financial performance.

Keywords: Restated Financial Statement, Persistence of Financial Performance

Earnings Management and Intellectual Capital

Original Research, D72

Galdipour, S., Rahimiyan, F., Etemad, A. and Panahi, H.
ABSTRACT: The present study aims to investigate the relationship between intellectual capital, its development, and earnings management. Using the modified Jones model, discretionary accruals were applied as the criterion for determining earnings management. The results indicate that there is a significant relationship between intellectual capital and earnings management, as well as a significant relationship between intellectual capital development and earnings management. However, there is no significant relationship between intellectual capital and intellectual capital development.

Keywords: Intellectual Capital, Intellectual Capital Development

pii: S23224770 1400073-4

Educational Services Quality Analysis

The present study was designed to investigate the effectiveness of mindfulness in the prevention of drug relapse. Method: A total of 90 male drug abusers referred to the drug treatment centers of Tehran city, were randomly assigned to either a mindfulness training group or a Behavioral Drug Reduction Counseling (BDRC) group. The two groups were compared in terms of relapse rates. Results: The results showed that mindfulness training and BDRC may be considered effective practical methods in reducing the risk of relapse in male drug abusers.

The present study aims to assess the relationship between information asymmetry and the cost of equity capital in listed companies in Tehran Stock Exchange. The results showed that there is a positive and significant relationship between information asymmetry and the cost of equity capital; however, this hypothesis can be confirmed in case of utilizing control variables.

Growing demands in finding new strategies to maximize organizational effectiveness have resulted in the development of psychological capital. This study aimed to examine the relationship among Field Dependence-Independence (FDI) cognitive styles, interclass comparisons of the association between some contextual variables and educational achievement. The findings underline the importance of interclass comparisons in educational achievement and emphasize the need for further research on this topic.

The current research is intended to examine the relationship among Field Dependence-Independence (FDI) cognitive styles, classroom score lists. Data analysis done by regression analysis indicates that FDI cognitive style interprets 8.8% of the variance in classroom score lists. This study could be suggested to holding cooperative education workshops at the same grade of primary school of students.

This research aimed to evaluate the optimum portfolio selection using the particle swarm algorithm. For this purpose, the performance of the particle swarm algorithm was compared with other algorithms in the problems of portfolio selection. The results showed that in the problems which are with complexity and size increases, the particle swarm algorithm perform better.
