**Individualized Instruction in Computer-Assisted Instruction**

**Original Research, D59**

**Iravani, M.R. Samifar, H. Shekarchi Zade., A.R.**

**ABSTRACT:**
The improvement of instruction has been a goal of educators as far back as the teachings of the Greek philosopher, and has been researched extensively since then. As technology has evolved, so has the way instruction is delivered, and computer-assisted instruction (CAI) has become a prominent method. This paper discusses the approach and defines and describes its advantages and also disadvantages.

**Keywords:** Individualized Instruction, CAI
The Comparative Analysis on Mathematical Achievement, Self-efficacy, and Self-concept Based the Perceived Classroom Climate

Original Research, D60

Kakojoibari, A. and Sharifi Saki, Sh.

ABSTRACT: The current study is aimed at conducting a comparative analysis on mathematical achievement, self-efficacy, and self-concept based on the perceived classroom climate. The research findings indicate that there is a significant difference in the level of mathematical achievement among students who perceive different classroom climates. Route analysis showed that this difference is attributable to the influence of variables such as mathematical self-efficacy.

Keywords: Mathematics Achievement, Mathematical Self-efficacy, Mathematical Self-concept, Perceived Classroom Climate, Students

Keywords: Smart Schools, Evaluation, Information Technology
Foster Self-esteem in Adolescents: Lipmann Approach

Original Research, D66

Tajali Nia, A.

ABSTRACT: The purpose of the present study is examination of the impact of the program "philosophy for children" (p4c) on foster self-esteem in adolescents. The study involved a sample of 154 adolescents divided into two groups: the experimental group (n=77) and the control group (n=77). The program was delivered to the experimental group for 16 weeks. The study employed the Investigation Ring Questionnaire (IRQ) to assess self-esteem. The results revealed statistically significant differences in self-esteem between the two groups, favoring the experimental group. The study concluded that the philosophy for children program had a positive impact on fostering self-esteem in adolescents.

Keywords: Self-esteem, Philosophy for Children, Investigation Ring.
An Examination into the Elementary Schools Teachers' Viewpoint on the Role of Assistant Principal

Original Research, D67
Mahdavi, N.

ABSTRACT: The present research has employed a qualitative approach with a phenomenological method to assess the viewpoint of teachers on the role of assistant principal within the enacted curriculum. The study findings indicate that teacher participation is a prerequisite for the assistant principal's role to be successful. Autonomy is an essential element for teachers and they believe their role is significant in maintaining quality education. In addition, their role is influential in encouraging teachers to employ innovative methods and avoid the traditional methods.

Keywords: Enacted Curriculum, Role, Viewpoint, Assistant Principal
