Keywords: Trauma; Public Sector; Individual Aspects

Individualized Instruction in Computer-Assisted Instruction

Original Research, D59

Iravani, M.R. Samifar, H. Shekarchi Zadeh, A.R.

ABSTRACT: The improvement of instruction has been a goal of educators as far back as the teachings of the Greek philosopher, Plato. This research paper discusses the approach and defines and describes its approach and advantages and also disadvantages of individualized instruction.

Keywords: Individualized Instruction, CAI
The Comparative Analysis on Mathematical Achievement, Self-efficacy, and Self-concept Based on Perceived Classroom Climate

Original Research, D60

Kakojoibari, A. and Sharifi Saki, Sh.

ABSTRACT: The current study is aimed at conducting a comparative analysis on mathematical achievement, self-efficacy, and self-concept based on perceived classroom climate. The findings indicate that there are significant differences among the groups, and route analysis showed that these differences are adjustable by some variables such as mathematical self-efficacy.

Keywords: Mathematics Achievement, Mathematical Self-efficacy, Mathematical Self-concept, Perceived Classroom Climate, Students
ABSTRACT: The present research was conducted to study on effect of teachers' content production on their performance in schools of Tehran. Keywords: Education, Content Product, Performance, Teachers, Smart Schools.
Mental Health Survey of the Adolescence and Adult Population in Iran

Original Research, D62

Rajabi, S. and Dehghani, Y.

ABSTRACT: The main goal of this study is to determine prevalence of mental disorders among individuals at the age of 15-65 years in Iran. Current study showed that prevalence rate of mental disorders is higher among the females than male (34.4% VS 21.1%).

Keywords: Anxiety; Depression; Somatization; Social performance disorder; Mental Disorders
Masters Students’ Views towards the Ratio of Iran IAU-Sari Branch Faculty Members use of Human Relations Index

Original Research, D63

Mirsaidi, G. and Yaghoubi, M.

ABSTRACT: The purpose of this study was to evaluate Masters Students’ Views towards the Ratio of Iran IAU-Sari Branch Faculty Members use of Human Relations Index. The results showed that students had a positive view of the faculty members’ use of Human Relations Index, as they felt more comfortable communicating with them and teaching space became more motivated for them.

Keywords: Self-esteem, Philosophy for Children, Investigation Ring
An Examination into the Elementary Schools Teachers' Viewpoint on the Role of Assistant Principal within the Enacted Curriculum

Original Research, D67
Mahdavi, N.

ABSTRACT: The present research has employed a qualitative approach with a phenomenological method to assess the viewpoint of teachers and principals regarding the role of assistant principal within the enacted curriculum. It highlights the importance of the assistant principal's role in influencing the teaching practices and the adoption of innovative methods. Factors such as administrative support, mentorship, and collaboration with the principal are influential factors in encouraging the teachers to employ innovative methods and avoid the traditional methods.

Keywords: Enacted Curriculum, Role, Viewpoint, Assistant Principal
ABSTRACT: The main purpose of this research is to survey the relationship between social capital, knowledge management, and organizational intelligence in the Tax Affairs Organization of Tehran. The study uses a questionnaire survey to collect data from 40 employees. The results of the analysis showed that social capital and knowledge management components, learning organization, and relative and recognitive capital can predict the organization intelligence.

Keywords: Social capital, Knowledge management, Organizational intelligence
ABSTRACT: Business and commercial units play significant role in economic structure of a country. Today, business units as main value creator of our economy have been increased and it is necessary to examine their relationship with other indicators. This study, in the light of the needs of the market economy, examines the relationship between the financial capital of these companies and abnormal yield of their stocks in Tehran Stock Exchange. The relationship between the financial capital, economic added value, residual income and book value with abnormal yield of stock in newly-arrived companies to Stock Exchange is also examined.

Keywords: Financial capital, Abnormal yield, Economic added value, Residual income
The Relationship between Religious Beliefs, Optimism and Moral Health of the University Students

Original Research, D70

Zakery, J. Makari, R. Pir Cheraghi, A. and Zahedi, O.

ABSTRACT: The target of the current study is to assess the relationship between religious beliefs and optimism and moral health.

Keywords: Religious beliefs, Optimism, Moral health

Investigating the Impact of Restated Financial Statements on Persistence of Financial Performance

Original Research, D71
Khatibzadeh, P. Abdoli, M. and Dehdar, F.

ABSTRACT: The present research investigates the relationship between the restated accounting figures and persistence of financial performance. The study highlights that the level of earnings management is affected by restated financial statement. Furthermore, it is found that earnings management increases, while increasing financial leverage results in reduction of the persistence of financial performance.

Keywords: Restated Financial Statement, Persistence of Financial Performance

Earnings Management and Intellectual Capital

Original Research, D72

Galdipour, S.; Rahimiyan, F.; Etemad, A. and Panahi, H.
ABSTRACT: The present study aims to investigate the relationship between intellectual capital, its development, and earnings management. Using the modified Jones model, discretionary accruals were applied as the criterion for determining earnings management. The study found no significant relationship between intellectual capital and earnings management. However, there is a significant relationship between intellectual capital development and earnings management.

Keywords: Intellectual Capital, Intellectual Capital Development.
**ABSTRACT:**

**Keywords:** Educational service; Student University; Quality; Seroquel
ABSTRACT: There are various methods developed for the performance evaluation. Most of the measurement models employ scoring systems, so, Balanced Scorecard and brainstorm methods are used to determine the role of each department in creating value added.

Keywords: Performance Evaluation, Value Added, Balanced Scorecard

**Internet and Social Development in Teens**

Original Research, D75
Aslani, N.

ABSTRACT: The basic objective of the present study is reviewed...
ABSTRACT: The purpose of the present study is investigate the effect the Philosophy for Children program (p4c) on Reducing Trait Anger in Teens.
The current research is intended to examine the relationship among Field Dependence-Independence (FDI) cognitive styles and classrooms' scores. Data analysis, done by regression analysis, indicates that FDI cognitive style interprets 8.8% of the variance in students' attitude, self-efficacy, gender, school climate, parental involvement, and grouping. TIMSS 2007, HLM.

This research aimed to evaluate the optimum portfolio selection using the particle swarm algorithm. For this purpose, the particle swarm algorithm performed better than the Markowitz Model, Mean-Variance Model, and Client Risk Model. This study showed that in problems with complexity and size increases, the particle swarm algorithm performs better.

The general objective of this study is the comparison of managers' critical thinking of the elementary school, guidance, and high school principals in the field of analysis. There are significant differences in critical thinking among elementary and high school principals.

The prediction of divorce through mental disorders and demographic information is an essential issue. The study aims to establish the relationship between mental disorders and demographic variables and divorce. The study is independent, and the sample is 379. A significant association is found between mental disorders and divorce. The study variables and the outcomes include mental disorders, depression, sociodemo, and economic status.
