ABSTRACT: The present research investigates the relationship between the restated accounting figures and persistence of financial performance. The study finds that restating financial statements leads to changes in financial performance, and these changes are persistent. Specifically, restating financial statements due to accounting changes increases, while increasing financial leverage results in reduction of the persistence of financial performance.

Keywords: Restated Financial Statement, Persistence of Financial Performance

Earnings Management and Intellectual Capital

Original Research, D72

Galdipour, S., Rahimiyan, F., Etemad, A. and Panahi, H.
ABSTRACT: The present study aims to investigate the relationship between intellectual capital, its development, and earnings management. Using the modified Jones model, discretionary accruals were applied as the criterion for determining earnings management. The study examines the relationship between intellectual capital and earnings management and finds a negative relationship between them. However, there is no significant relationship between intellectual capital and intellectual capital development. Keywords: Intellectual Capital, Intellectual Capital Development, Earnings Management.
ABSTRACT: The goal of this study was to determine gaps in perceptions and expectations of students in the University of Tehran. The study was based on a questionnaire that was completed by a sample of students. The data was analyzed using the Structural Equation Model. The results showed that there are significant gaps in perceptions and expectations, especially in the areas of academic support and administrative services. These gaps can be attributed to the lack of communication and transparency between the university administration and the students. Therefore, it is recommended that the university administration should attempt to eliminate or mitigate these gaps to improve the quality of service.
