Identifying the Effective Factors on Achievement of Smart Schools by Review of the Status Quo and Problems in Smarts Schools

Original Research, D65
Mirsaidi, G. and Yaghoubi, M.

ABSTRACT: The current investigation is intended to identify the effective factors on achievement in Smart Schools via study on the status quo and problems in Smart Schools. The investigation confirmed that the main factors affecting Smart Schools' achievement are software and digital factors, and environmental factors, which are at average level. The investigation also showed that software and digital factors are not in suitable conditions and also environmental factors are at average level.

Keywords: Smart Schools, Evaluation, Information Technology
ABSTRACT: The purpose of the present study is examination of the impact of the program "philosophy for children" (p4c) on foster self-esteem in adolescents. Self-esteem, Philosophy for Children, Investigation Ring.
An Examination into the Elementary Schools Teachers' Viewpoint on the Role of Assistant Principal

ABSTRACT:
The present research has employed a qualitative approach with a phenomenological method to assess the viewpoint of teachers on the role of assistant principals in the context of the enacted curriculum. The study highlights that the assistant principal's role and the school's administration climate are influential factors in encouraging the teachers to employ innovative methods and avoid the traditional methods.

Keywords:
Enacted Curriculum, Role, Viewpoint, Assistant Principal

Original Research, D70

Zakery, J. Makari, R. Pir Cheraghi, A. and Zahedi, O.

| ABSTRACT: | The target of the current study is to assess the relationship between religious beliefs & optimism and moral health. |
| Keywords: | Religious beliefs, Optimism, Moral health |

**Investigating the Impact of Restated Financial Statements on Persistence of Financial Performance**

Original Research, D71  
Khatibzadeh, P. Abdoli, M. and Dehdar. F.  

*J. Educ. Manage. Stud., 4*  
(2): 420-424, 2014
ABSTRACT: The present research investigates the relationship between restated accounting figures and the persistence of financial performance. It is observed that changes in restatements lead to variations in financial performance, with increases in restatements resulting in changes to financial performance, while increases in financial leverage result in a reduction in the persistence of financial performance.

Keywords: Restated Financial Statement, Persistence of Financial Performance

Earnings Management and Intellectual Capital

Original Research, D72

Galdipour, S., Rahimiyan, F., Etemad, A. and Panahi, H.
ABSTRACT: The present study aims to investigate the relationship between intellectual capital, its development, and earnings management. Using modified Jones model, discretionary accruals were applied as the criterion for determining earnings management. It was found that there is a significant relationship between intellectual capital and earnings management, with no significant relationship between intellectual capital development and earnings management. Keywords: Intellectual Capital, Intellectual Capital Development.
ABSTRACT: The goal of this study was to determine gaps in perceptions and expectations of students in University of Tehran using the service quality model. It was observed that there are negative gaps in the current status of the university's service quality and the optimal status. It is suggested that it is necessary to transform the current system to a new one that meets the objectives of the university, emphasizes the improvement of the service quality, and is committed to the reduction of the gaps. The educational service is a key component of the university, and it should be attempted to eliminate or mitigate the existing gaps.

Keywords: Educational service; Student University; Quality; Seroquel
ABSTRACT: There are various methods developed for the performance evaluation. Most of the measurement models employ scoring systems, so, Balanced Scorecard and brainstorm methods are used to determine the role of each department in creating value added.

Keywords: Performance Evaluation, Value Added, Balanced Scorecard

Aslani, N.

ABSTRACT: The basic objective of the present study is review the role of using of the internet on Social growth of guidance school students.
Investigate the Effect the Philosophy for Children program (p4c) on Reducing Trait Anger in Teens

Original Research, D76

Tajali Nia, A.

ABSTRACT: The purpose of the present study is investigating...
The goals of this study were to investigate the relationships between mathematics achievement and some contextual factors. The study showed that the school level accounts for a significant amount of variability in student mathematics achievement.

Engagement in mathematics should be expected of all students, and the learning environment should be one where students have the requisite prior knowledge, the curriculum is relevant to them, the classroom tasks interest them, and they have the support and encouragement needed to succeed.

The general objective of this study is to compare managers' critical thinking of the elementary school, guidance principal, and teacher. Among elementary and high school principals in the field of analysis, there are significant differences in critical thinking.

The present study aims to assess the relationship between information asymmetry and the cost of equity capital in listed companies. However, this hypothesis can be confirmed in case of utilizing control variables.

This research aimed at identifying the core competencies in the field of elementary education. Regardless of the set of core competencies, a competency-based curriculum in the field of primary education will have the desired effectiveness to train professionals needed to improve education.
