Degree of Public Participation in the Affairs of Islamshahr Education in Terms of Education Professionals and Parents

Original Research, D142
Shah Sharafi M, Reza Araghieh A.

ABSTRACT: The school is one of the major training and educational institutions, which requires the effective participation of the community for its success. According to the results, the students have a lower degree of public participation in the affairs of the school. Moreover, it is found that education professionals have more participation in the school affairs than the students' parents. The reason is that the education professionals have more work and time for their duties. The involvement of more professionals in the fields of education emphasizes this group is higher than of students' parents.

Key words: Community Participation, The Education Development And Growth, Public Engagement In Education
