The Relationship between Literary Ability of Students and Their Academic Achievement

Original Research, C8
Dorri N. Zarei E. and Heydari H.

ABSTRACT:
This study examined the relationship between students' academic progress and their literary abilities. This was a descriptive research. Data was gathered from 150 students of Shahed University. A literature test was used to evaluate literary abilities and a paper-pencil test was used to assess students' academic achievements. The results indicated that students' literary abilities are not gender specific; general programs for optimizing the literary abilities of various ages should be provided.

Keywords: Literary Ability, Academic Achievement, Literary Knowledge, Comprehension
