Measures Taken by Iran to Prevent Transnational Organized Crimes and its Estimated Position Compared to the UN Criminal Policy

Original Research, D88

Vejdani S. and Nik Khah R.

ABSTRACT: Transnational Organized crimes are being considered as one of the most important problems of the 21st century. These crimes are conducted in the form of money laundering, drug trafficking, smuggling, and terrorism. The government of Iran is considered as one of the most active countries to prevent such crimes. In this article, the measures which have been taken by the government of Iran against Transnational Organized Crimes and its estimated position compared to the UN conventions (Palermo and Merida) are presented.

Keywords: Prevention, Transnational Organized Crimes, Criminal Policy, Position of Iranian government.
According to direct tax code, financial statements should be prepared based on Generally Accepted Accounting Principles (GAAP). These principles are essential for determining the proper allocation of tax on the basis of financial statements. Differences between expressed tax and diagnostic tax can occur due to financial distortion, which affects the financial statement's accuracy and the tax obligations of the entity. In order to maintain financial accuracy and integrity, it is crucial to understand the implications of these differences.

With the widespread availability of computers and information technology and advanced media, no country can be isolated from the effects of decision-making. The affordability of decision-making has increased significantly, and there was no evidence to reject the mentioned fourfold hypothesis.
