The Investigation of the Structural Relationship between Perception of Class and Psychological Basic Needs of University Students and their Academic Engagement

Original Research, D3

Asadian MH., Kavosian J., Bagi A., Hashami K., Arabzadeh M. and Hoseinpour M.

ABSTRACT: The study presents a model to describe structural relations between three groups of variables based on theories. The model between mental needs and cognitive functioning was significant (but low) and between psychological basic needs and academic performance was significant considerably.

Keywords: Psychology, Cognitive, Affective and Behavioral

The Comparison of Two Methods of Maximum Likelihood (ML) and Diagonally Weighted Least Squares (DWLS) in Testing Construct Validity of Achievement Goals

Original Research, D4

Baghdarnia M., Firozy Soreh R. and Gorji R.

ABSTRACT: The present essay was intended to compare between two methods of estimation, namely, Maximum Likelihood (ML) and Diagonally Weighted Least Square (DWLS), both of which are used in structural equation modeling. ML estimation adapts default estimation method (ML) so the results may be biased and this may lead to making erroneous decisions.

Keywords: Estimation Methods, Maximum Likelihood, Diagonally Weighted Least Square (DWLS), Construct Validity, Achievement Goals

Composing in Persian as a Second Language and English as a Foreign Language: A Study of Narrative Writing

**Abstract:** Although numerous studies have been conducted to investigate second language composing processes; little research has been conducted to investigate second language composing processes. The current study aimed to examine the composing processes of Persian native speakers and English as a foreign language learners. The participants were divided into two groups: high-level and low-level learners. The results showed that the high-level learners had fewer problems in composing in both languages, whereas some of the students below the level had considerably more problems in composing in English and Persian.

**Keywords:** Second Language, Narrative Writing, Linguistics

Infertility has a strong and negative impact in several areas of the individual's life. The infertile women may lose their psychosocial responses (self-image/self-esteem, guilt/blame, sexuality problems, and interpersonal relationship). The purpose of this study is to compare dimensions of emotional security among adolescents, considering various types of family type. This study aimed to investigate globalization, globalizing, and their effects on educational systems. Statistical methods show that there is a significant relationship between globalization, globalizing, and educational systems. One of the fundamental concepts of philosophy is the concept of possibility. This concept is important in Islamic and Western lifestyle, viewpoints of Islam and the West about the form of possibility. To his opinion, the need criterion to cause is possibility of poverty. The sport tourism is most important and most developed sector of tourism industry. The first step for the development of sport tourism is the establishment of sport and recreation centers. The first step for the development of sport tourism in Hormozgan Province is the establishment of sport and recreation centers. This study investigated the effectiveness of emotionally-focused couple therapy in resolution of marital conflicts. The purpose of this research is the investigation of the relationship between audit fees, auditor independence, and audit quality. The results show that audit fees change is significantly associated with auditor independence and audit quality. The aim of the paper was to determine the causal model of personality traits, motivational beliefs, and self-regulated learning strategies. There was a causal model for intrinsic goal orientation, self-efficacy, and task value.
ABSTRACT:
Loan, as a part of economic system with social results, is emphasized in Quran and narratives. Verses of Quran about loan are considered in this paper and analyzed based on Islamic interpreters and scholars, with emphasis on the separation of religion and Imami scholars' ideas.
