**ABSTRACT:**
The goal of this study was to determine gaps in perceptions and expectations of students in the University of Tehran. Using gap analysis, the study identified areas where the actual level of service delivery did not meet the students' expectations. These gaps were then reduced through a series of interventions. The study concluded that improving the quality of services is crucial for enhancing student satisfaction. The findings suggest that a comprehensive approach to service delivery is necessary to bridge the gaps and improve overall service quality.
