An Examination into the Elementary Schools Teachers' Viewpoint on the Role of Assistant Principals

Original Research, D67
Mahdavi, N.

ABSTRACT: The present research has employed a qualitative approach with a phenomenological method to assess the viewpoint of teachers on the role of assistant principals within the enacted curriculum. The study aimed to explore the teachers' perceptions and experiences regarding the role of assistant principals and how they influence the implementation of innovative teaching methods. The findings revealed that teachers' viewpoints are shaped by various factors, including the assistant principal's leadership style, the school's culture, and the support provided by the principal. These factors are influential in encouraging the teachers to employ innovative methods and avoid the traditional methods.

Keywords: Enacted Curriculum, Role, Viewpoint, Assistant Principals

Keywords: Religious beliefs, Optimism, Moral health

Investigating the Impact of Restated Financial Statements on Persistence of Financial Performance

Original Research, D71
Khatibzadeh, P. Abdoli, M. and Dehdar. F.

### ABSTRACT
The present research investigates the relationship between the restated accounting figures and persistence of financial performance. It is hypothesized that increasing restatement due to accounting changes increases, while increasing financial leverage results in reduction of the persistence of financial performance.

### Keywords
- Restated Financial Statement
- Persistence of Financial Performance

**Earnings Management and Intellectual Capital**

**Original Research, D72**

**Galdipour, S., Rahimiyan, F., Etemad, A. and Panahi, H.**
ABSTRACT: The present study aims to investigate the relationship between intellectual capital, its development, and earnings management. Using the modified Jones model, discretionary accruals were applied as the criterion for determining earnings management. The study found that overall, there is a significant relationship between intellectual capital and earnings management. However, when examining each year, the relationship varies, with some years showing a significant relationship and others showing no relationship. Additionally, there is no significant relationship between intellectual capital and intellectual capital development.

Keywords: Intellectual Capital, Intellectual Capital Development

Educational Services Quality Analysis
Original Research, D73
Baghdarnia, M. and Arash, M.

ABSTRACT: The goal of this study was to determine gaps in perceptions and expectations of students in the University of Tehran using the SERVQUAL model. The results showed that there are significant gaps between the current status and the optimal status of educational services. Therefore, it is necessary to attempt to eliminate or mitigate these gaps.

Keywords: Performance Evaluation, Value Added, Balanced Scorecard

Internet and Social Development in Teens

Original Research, D75
Aslani, N.

ABSTRACT: The basic objective of the present study is...
ABSTRACT: The purpose of the present study is investigate the effect the Philosophy for Children program (p4c) on reducing Trait Anger in Teens.
This research aims to evaluate the optimum portfolio selection using particle swarm algorithm. For this purpose, the Markowitz Model, Mean-Variance Model, and Client Risk Model are introduced. It is argued that in the problems which are complex and have a large size, the particle swarm algorithm performs better.

The main question in this research was the identification of core competencies in the field of elementary education in Iran. The Competencies-based curriculum in the field of primary education, regardless of the set of core competencies, will affect the students' attitude, self-efficacy, gender, school climate, parental involvement, and grouping.

The purpose of this research was to discover the prediction of divorce between Zanjan couples based on mental disorders and demographic characteristics. The findings underline the importance of mental disorders and demographic characteristics in divorce.

The general objective of this study is comparison of managers' critical thinking of the elementary school, guidance and high school for girls in Imamshahr City, with the critical thinking among elementary and high school principals in the field of analysis. The study reveals significant differences.

The effect of Information Asymmetry on the Cost of Equity Capital in Listed Companies on the Tehran Stock Exchange has been examined. It has been found that Information Asymmetry has a significant effect on the Cost of Equity Capital.

The goal of this study was investigation of relationships between mathematics achievement and some contextual variables. The study shows that school level accounts for a significant amount of variability of student mathematics achievement. The diverse pedagogies and assessment regimes that match their expectations is one of the sets of factors that affect their goals for learning, their willingness to persist, and the extent to which they see participation in schooling as creating opportunities.
